

## **TO WHOM IT MAY CONCERN**

I appointed MACJ for inspection of my new flat at Residency, Rashbehari Avenue, Kolkata - 700 029. I am very impressed by their timely and thorough inspection. The team comprising of technical professionals has provided me a detailed report with suggestions for rectification of defects. They used necessary tools required for inspection of civil, electrical, plumbing and wood works of the flat.

I think it is essential to get the inspection done by MACJ before going ahead with the interiors as stability of the building is dependent on the basic preliminary work related to the above mentioned areas.

I therefore strongly recommend to all flat / house buyers to get their property inspected by MACJ.
