**TESTIMONIAL**

I am Mr. Jitendra Agarwal director of Anemos Energies Private Limited and The Agarwal group of Companies.

This testimonial is regarding the services of Mr. Ravi Bupal of "The Buyer Choice Home Inspection Services" rendered to me a few days back.

I had a serious dampness issue in the bathroom. The solution to the problem would cost me Rs, 2,50,000/- as per estimates given by waterproofing companies. However Ravi came on board and found out that the solution to the problem was a small tile grouting oversight done by the tile fitter.

This solution that costed me a mere Rs.100/- solved the entire problem.

I would rather pay Ravi a fee that gives me a consolidated and definite solution than pay for a service that is done by trial and error.

Ravi was very professional with my home inspection. I was very pleased with quality of my inspection. I would definitely recommend Ravi to my family and friends.
