**TESTIMONIAL FOR RITU SUREKA**

I am Tanay Saraf Advocate & Partner, SB Legal Partners, a law firm at Calcutta High Court.

Our 30 year old home recently developed a dampening situation wherein after a heavy rainfall, the ceiling would drip water in two rooms. My father who had constructed the building with his own hands was surprised where the source of the water.

I told him about how MACJ Home Inspection from my BNI Chapter had modern day gadgetry and could detect the water source. We hired their services and MACJ Inspectors inspected the premises with complete ease and suggested by father to make other adjustments in the terrace to prevent future water seepage.

My father and I are very happy with their service and would recommend their services to any family suffering from damp walls at their residence.

Regards,  
Tanay Saraf
