

"MACJ-A Buyer's Choice Home Inspection has played a vital role in getting our dream home delivered in the most perfect manner. At first, I was hesitant about whether I should pay for such services but after seeing the report I realized that it was a good decision.

Before going for the inspection, all I could find were 5-6 issues in my flat but the MACJ-A Buyer's Choice team did come up with a lot of other issues that needed to be fixed by the builder before giving possession.

The reports are exhaustive with the list issues and a photo for reference for each one of them.

Such reports also help us in getting the work done from the builder. After receiving the report, I now have a ready checklist which I can handover to the builder. The team is well equipped with modern gadgets. I would like to thank MACJ- A Buyer's Choice, Mr. Nitin and his team for being professional and committed.

I would definitely recommend their services to everyone."
